Personal Statement

Hi, I'm Güngör Öztürk. **I have been studying software development on websites and mobile applications.** The reason I work in these fields is that I like to develop platforms that can solve people's daily life problems. If you want to know more about me you can visit my website by the following the link (<https://gungorozturk.vercel.app>).

Education

Konya Technical University - **BSc Computer Engineering** / 2018 - 2022

Linux Winter Camp - **Flutter Basics** / 2020

Work Experience

Front-end Developer - SmartupNetwork / 11.2022 - Ongoing

Contributes to mobile and web projects using React Native and Javascript.

Intern Software Developer - Inovaktif Engineering - Energy / 07.2022 - 08.2022

Worked on redesigning and developing the company's website.

Intern Front-end Developer - ICS Defense / 07.2021 - 11.2021

Contributed to the development of the mobile application that shows the electric cars charging stations to the users.

Part-Time Software Developer - Konya Technical University Information Technologies Department / 11.2019 - 03.2020

Contributed to the mobile application project developed for the university as a front-end developer.

Freelance Web Developer / 06.2019 - Ongoing

Designed and developed responsive websites for several companies in different sectors.

Digital Skills

Software Development

Javascript | Next.js | Vue.js | React.js | SASS
React Native | HTML5 | CSS3 | Bootstrap

Tools

Git | VSCode | Figma | Vercel | Firebase | Strapi
Airtable | Heroku | **MS Office (Advanced)**

Projects

Anamnesis Tools

I developed a website and mobile application for the digitalization of the anamnesis process in hospitals for my graduation project. (Vue.js | React Native | Firebase)

Betikblog (www.betikblog.com)

I created a blog website project where we periodically share what we learned with my friends. As part of this project, we also started creating Youtube content. (Next.js)

Mentally (Click here to visit website)

I developed a website that raises awareness about personality disorders. On this website, visitors can examine their personality and behaviour by answering the checklist questions asked according to DSM-5 standards.
